

### **Write about your mother**

My favorite movie is "Finding Nemo." It's an animated film about a clownfish named Marlin who goes on an adventure to find his son, Nemo. I love this movie because it's funny, exciting, and has a great message about family and friendship. The characters in the movie are really interesting. Dory, a forgetful blue tang fish, always makes me laugh with her funny lines. The underwater world they explore is colorful and beautiful. The movie's message about never giving up and the bond between parents and children is heartwarming. I enjoy watching "Finding Nemo" with my family. It's a movie that brings joy and teaches important lessons at the same time. Whenever I feel down, this movie reminds me to keep going and stay positive.
